

TIRED OF LIVING IN

PAIN?

Through Stromal (Stem Cell) Deployment, patients have seen regenerative/restorative improvement with symptoms of conditions listed below.

TMJ

NECK PAIN/ARTHRITIS

**SHOULDER PAIN/ARTHRITIS/
ROTATOR CUFF TEAR**

BICEP TENDINOSIS & BURSITIS

BACK PAIN

JOINT ARTHRITIS

**SACROILIAC JOINT
DYSFUNCTION**

HIP-JOINT ARTHRITIS

HAMSTRING STRAIN/TEAR

**QUADRACEPS STRAIN/
PARTIAL TEAR**

DEGENERATIVE ARTHRITIS

**OSGOOD-SCHLATTER
SYNDROME**

KNEE PAIN

CALF PAIN

**CHRONIC PARTIAL
TENDON TEAR**

JOINT ARTHRITIS

**CHRONIC ACHILLES
TENDINOSIS**

DIABETIC NEUROPATHY

PLANTAR FASCIITIS

STEM CELL THERAPY CAN BE USED TO ASSIST IN THE HEALING OF CONDITIONS SUCH AS:

NEURODEGENERATIVE DISEASES

*Neurodegenerative & Injuries
Parkinson's Disease
Spinal Cord Injury
Stroke Damage
Brain Injury
Multiple Sclerosis*

ANTI-AGING & WELLNESS

*Anti-Aging & Wellness
Chronic Fatigue
Sexual Dysfunction & Incontinence
Fibromyalgia*

ORTHOPEDICS/ MUSCULOSKELETAL

*Orthopedics/Musculoskeletal
Knee Injuries, Meniscus tears
Osteoarthritis
Torn Ligaments and Sports Injuries
Shoulder Injuries
Spine Injuries
Hip Injuries
Neck Injuries*

CARDIOLOGY & PULMONARY

*Myocardial Infraction
Heart Failure
COPD
Asthma
Acute Heart Damage
Chronic Coronary Artery Disease*

AUTOIMMUNE DISEASES

*Diabetes Type 1 (Juvenile)
Diabetes Type 2
Systemic Lupus
Sjogren's Syndrome
Myasthenia
Autoimmune Cytopenia
Scleromyxedema
Scleroderma
Crohn's Disease
Behcet's Disease
Rheumatoid Arthritis
Juvenile Arthritis
Polychondritis
Systemic Vasculitis
Alopecia Universalis
Buerger's Disease*

SCI (Stem Cell International) does not claim to cure any disease or condition stated above. Note: We as a company have invested in state of the art equipment designed to utilize a combination of growth factors (ie: Adult Stem/Stromal Cells, Exosomes and HUCT cells), allowing us to harness your body's NATURAL restorative properties. We have had training from world renowned specialists on utilizing regenerative cells to activate your body's amazing ability to regenerate, promoting wellness through Regenerative Medicine.

WHAT ARE STEM CELLS?

- Essentially the repairmen of the body, stem cells help repair, replenish and regenerate injured/damaged areas.
- Potential healing properties of stem cells include, but not limited to: regenerating nerves, regrowing cartilage, repairing partial and full thickness tears, and reducing inflammation.

WHERE DO STEM CELLS COME FROM?

- Adult stem cells are present in all areas of the body, mostly located in the area of small capillaries. Stem cells are harvested from bone marrow and adipose tissue (and are also naturally found in blood). They serve as a storage area to be called upon in areas of aging or need. Regenerative cells can also come from Exosomes or Human Umbilical Cord Tissue, donated from healthy Mothers within the United States.

WHAT IS STEM CELL THERAPY?

- Stem Cell Therapy is the process of utilizing regenerative cells (derived from adipose/bone marrow, exosomes, human umbilical cord cells, etc.) into the body to initiate the process of healing and regeneration.
- We at Stem Cell International want to help patients live pain free and potentially avoid unnecessary surgeries, joint replacements and medications.
- Our physicians will determine a customized treatment plan tailored especially for your condition that gives you the best chance for success.
- Each patient's individual ailments vary and results will vary based on your own body's unique healing process.

When you walk in, you can tell that they care about you. You don't get that feeling in hospitals. My hip has come so far-it just blows my mind. What I've done, I'd do it again in a minute."

**-Eldon E.
Stem Cell International
Hip Patient**

THE STEM CELL INTERNATIONAL DIFFERENCE:

STEM CELL INTERNATIONAL

- Everything is included in your cost, no hidden fees.
- 24 months of post-procedural follow-ups with the MD are included.
- Procedures are performed under ultrasound guidance.
- Local Anesthesia.
- No downtime, no rehab needed.
- Increased range of motion and decrease in pain.
- 1-day outpatient procedure.
- Customized treatments for each patient.

OTHER CLINICS/SURGERY

- Possible hidden fees and co-pays.
- No free follow-ups.
- No ultrasound guidance.
- General anesthesia (possible complications).
- Possible downtime and the need for rehab.
- Potential loss in range of motion.
- Possible (extended) hospital stays.

At Stem Cell International you're not just a number, we follow-up well after your procedure to consistently track your progress and help you get the best results possible.

We use the most advanced education and training for your Stem Cell deployment and are committed to making treatments more affordable with an average savings of \$2,000 compared to other Clinics.

Our patients have traveled from all over the world to come to Stem Cell International in Toledo, Ohio. We pride ourselves on being the world's leader in Regenerative Medicine.

"I no longer have to take Motrin for back pain everyday after my stem cell treatment, and I'm now pain free... I'm able to pick up my daughter and do things I couldn't do before."

**-Todd K.
Stem Cell International
Back Patient**

"I didn't want anything foreign in my body, I just wanted to do things the way they should be done - natural. Everything is really good after my stem cell treatment, my right knee is 100%, my left knee is probably 90-95%"

**-Kim G.
Stem Cell International
Knee Patient**

WE ARE COMMITTED TO MAKING STEM CELL THERAPY AFFORDABLE WITH:

- Free Consultations
- Free Follow-Up Appointments
- Interest Free Financing and Payment Plans Available
- HSA's Accepted

"Since the treatments at Stem Cell International my insulin intake has gone down and I feel more energized. It helps my performance on the ice as an NCAA Hockey player."

**-Chris L.
Stem Cell International
Type 1 Diabetes Patient**

"The TMJ stem cell treatment is the best thing I've done for myself to feel better and function better."

**-Karol M.
Stem Cell International
TMJ Patient**

"I actually had relief that evening, since then it's only gotten better... After I had Stem Cell Treatments on my hip, I injured my knee and didn't hesitate to go back for another treatment. I'm so pleased with the results."

**-Diana Linda W.
Stem Cell International
Hip & Knee Patient**

Stem Cell Treatments have put me in a place where I can train full throttle again, I'm able to do kicks I haven't been able to do in years"

-Jason B. (Taekwondo/
Jiu Jitsu Instructor)
Stem Cell International
